Muhammad Talha

Phone number: (+92) 3187019892 (Mobile) | **Email address:** shykhtalha33@gmail.com | **Website:** https://muhammadtalha-theta.vercel.app/ | **LinkedIn:** https://www.linkedin.com/in/muhammad-talha-772085392/

EDUCATION AND TRAINING

01/10/2021 – 01/07/2025 Faisalabad, Pakistan

BACHELOR OF SCIENCE IN COMPUTER SCIENCE Government College University Faisalabad

- Programming, data structures and algorithmic
- Artificial intelligence, data mining, and compiler construction
- Web App Development, Databases, distributed systems
- Computer networks, operating systems

Website https://gcuf.edu.pk/ | **Final grade** 3.21/4.0

SKILLS

Programming

JavaScript | TypeScript | Python

Agentic Ai

n8n | custom Gpts

Frontend Web Dev

HTML | CSS | Next Js | React js | Bootstrap and Tailwind CSS | ANT design | Framer Motion | Shadcn | Redux/ Redux-Toolkit

Backend

node JS | EXPRESS JS | Firebase

Databases

MongoDB | PostgreSQL | Firestore

Version Control

Git | Github

PROJECTS

10/08/2025 – CURRENT

Shaadi Sheets – Wedding Planner Management System

- Developed wedding management platform for events, guests, and vendor coordination
- Implemented guest tracking system with seating arrangements for bride/groom attendees
- Integrated booking management for venue, catering, decoration, transport, and hotels
- Built payment tracking and timeline scheduling for complete event planning

Link https://shaadisheets.com/

29/12/2025 – 30/12/2025

Email Automation Workflow

- Built automated email workflow using n8n for scheduled data processing
- Implemented Google Sheets integration to read, process, and update data automatically
- Created loop logic with JavaScript to iterate through records and send personalized emails
- Configured scheduled triggers and wait conditions for timed message delivery

01/05/2025 – 09/06/2025

AI Recommendation System for Real Estate App

- Developed a real estate marketplace PWA for property listings and searches
- Integrated agent system to help users find and select suitable properties
- Implemented responsive design with offline access and mobile-first experience
- Built search filters for location, price, and property features

Link https://real-esate-loop.vercel.app/

WORK EXPERIENCE

FULL STACK WEB DEVELOPER – UTECHO – 10/11/2025 – Current – FAISALABAD, PAKISTAN

- Developed and deployed scalable full-stack web applications using MERN Stack, Next.js, and TypeScript
- Designed and implemented RESTful APIs with secure authentication, database optimization, and clean architecture
- Debug issues, enhance performance, and deliver production-ready solutions

MERN STACK DEVELOPER – DEV HOUSE – 30/12/2024 – 31/05/2025 – FAISALABAD, PAKISTAN

- Applied Redux Toolkit, PostgreSQL, and Prisma ORM to develop scalable applications
- Implemented state management and database operations for scalable full-stack projects
- Collaborated with development team following industry best practices and version control workflows

CERTIFICATIONS

Stanford University, 06/06/2025

Code in Place – Stanford University (Python)

- Strengthened problem-solving and logical thinking using Python.
- Applied core computer science concepts to practical challenges.

Mode of learning: Online

Link https://codeinplace.stanford.edu/cip5/certificate/ie33co

HACKATHON AND COMPETITION

20/04/2026 – 25/04/2026

Agentic Economy on Arc

- Built **BodyForgeAI – AI Fitness Coach & Blockchain Pay**, an AI agent-based web application during the hackathon.
- Integrated USDC nanopayments using Circle and Arc technologies.
- Collaborated in designing and implementing AI agent workflows and core application logic.

Link https://lablab.ai/u/@muhammad_talha820/ai-hackathons/nano-payments-arc/certificate

03/04/2026 – 06/04/2026

CS50 Puzzle Day

- Solved programming and logic puzzles in CS50 Puzzle Day.
- Used basic programming concepts to find solutions.
- Improved problem-solving and thinking speed through coding challenges.

Link https://certificates.cs50.io/cd7d67c3-edb9-4168-bb72-b9f6161b4b3a.pdf

06/02/2026 – 07/02/2026

Deriv Ai Talent Sprint

- Led a 3-member team to build restaurant voice agent

• Enable it to handle calls, present the menu, take orders and save them in Google Sheets.
